The WBD 2024, Brain Health and Prevention

WBD Committee.

Regions.

Speakers Vanessa, Sheila.

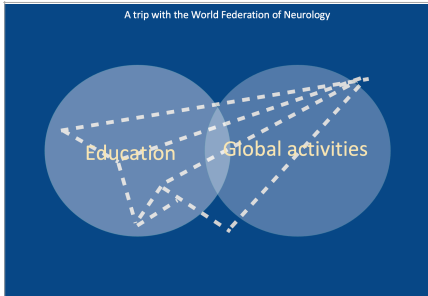

WHO.

cc WFNR, Riadh, Marco, Austrian society

I want to thank all of you, for having participated in this years World Brain day on Brain Health and Prevention. Both terms and their combination are timely and are within the intention to promote Brain Health, as well as focus on one aspect of the IGAP, prevention.

We hope that regions, and member societies will use to capitalise this momentum, and I attach a screenshot from the WBD on Brain Health and Prevention , in Beijing, On Sunday, 21 st of July. More data to follow. Please send us individual report from your, or your societies activity, to be positioned on the WFN website.

We look forward the next WBD 2025.

The WFN: Education and Global activities

On the WBD, free consultations in neurology were offered to the public in the Tiantan hospital

Brain health session, Beijing, Keynote 2024 lecture

Best regards Wolfgang
